

CHARLEY WOODS

A born-and-raised-in Nashville native, songwriter and recording artist Charley Woods is now making an impact way outside of Music City's borders. With her instantly identifiable voice and her blend of contemporary folk and Americana writing, she is in a league all her own. Since picking up the guitar at age eleven, she has performed, written and collaborated with many talented and influential figures in today's music scene including Brad Paisley, Chris Young, David Nail, Wil Nance, Mark Nesler, and many more. Since releasing her debut album "Starting Gate" in 2017 Charley has proven herself to be one of Nashville's favorite must-watch artists.
